

TIME TO LEAVE

A part: A – E7

B part: Bb – D – F – C

C part: G – F – C

JOSEPH

You two make me want to scream.

I'm coming apart at the seams

I must leave this hellish dream.

I'd rather face the fire

Not your harpy choir

Satan's host is dire

YVONNE

You cannot just stroll out of here.

Leave me alone with that uppity queer.

Apologies for the things I said.

I am sorry for messing with your head.

ILENE

He is going no where

The door is locked.

That valet does not care.

There's no escape from this nightmare.

I'll take care of you, Precious

This dumb prick won't touch us

No one here but just us

JOSEPH

They better open this goddamned door.

I cannot take you two any more.

Never been so sick in all my life.

My two wrists are ready for the knife.

ALL

All we want is to click our heels  
together

Stuck here in room together forever

All we want is to click our heels  
together

Wake up back at home and wish that this  
had never, never

JOSEPH

Get the hell away from me

You're more fucked than even she

You can't stop me, I'm leaving

YVONNE

Don't leave me here with her!

You are not a coward.

I won't stay with that whore

JOSEPH

Look who's talking Precious.

you are on your own

YVONNE

Don't you call me that.

You're a coward to the bone.

ILENE

Let him leave us here.

We'll make a happy home.

YVONNE

If we leave here

You are stuck here all alone

JOSEPH

Let me out, you bastards!

I'll take what you give me.

Torture, eviscerate me

Even if you castrate me

No more fucked up women.

Get...me...out...of...here!
